TROOPS READY TO MOVE IN SPAIN

Minister of Interior Announces They Are Ready to Leave for San Sebastian

PREMIER "TERRIBLE MAN"

Cardinal Vannutelli Says Alfonso is Too Young to Grapple With Situation

Madrid, Aug. 4.—The Minister of the Interior in a statement regarding the religious agitation announced that troops are ready to leave for San Sebastian at a moment's notice. The Republican leader, Senor Suriano, is organizing for an anti-clerical manifestation at Pansan on August 7th, the same day on which the Catholics will hold demonstrations.

Premier Gets Report

Premier Canalejas has received a message of congratulation and support from 138 Andalusian associations representing 60,000 workmen, agriculturalists and business men. The San Sebastian city council as well as the senate yesterday voted to protest to the government against the proposed Catholic manifestation on August 7th which Cardinal Merry del Val, the papal secretary of State is preparing in answer to that of Premier Canalejas, and which will be submitted to the congregation of extraordinary affairs.

A "Terrible Man"

Rome, Aug. 4.—The Giornale d'Italia publishes an interview with Cardinal Vicenzo Vannutelli, who describes Premier Canalejas as a terrible man, adding that it is impossible that King Alfonso approves his anti-clerical policy. Cardinal Vannutelli goes on to point out that the king is a fervent Catholic by sentiment and tradition but that he is too young to grapple with the situation.

Madrid, August 4.—There are grave rumors of disaffection in the army to-day as the result of the clash of Alfonso with the Vatican. Clericals and antis fought in the streets in Barcelona to-day.

DEPUTATIONS AT WEYBURN, SASK.

Sir Wilfrid Is Interviewed by the Grain Growers' Association

Weyburn, Sask., Aug. 3.—President Shepard, of the Grain Growers' Association and a deputation met Sir Wilfrid Laurier and delivered a lengthy and detailed denunciation of protection, expressing gratitude for what the Premier had already done, but stating that they had expected him to lay the axe to the root of the evil, and not merely lop off some of the branches.

Holding up the British ideal of free trade they hoped in response to President Taft's request for closer relations that the government would secure this valuable market.

Premiere Inquiry

The premier in reply reaffirmed his personal adhesion to free trade policy, and while the progress he had hoped for had not been made he would look into the claims of the grain growers. He stated that the government was willing to discuss directly with the States on the latter's advance on a broader basis, and after a tribute to the British trade policy the Premier pointed out that it was the result of centuries of progress. He surpassed in results and permanency those who sought to effect reform by revolution. He promised that a tariff commission should go fully into the matter.

Conservative Presides

The Premier had a busy day automobiling and attending a civic reception and civic luncheon where Dr. Smith, president of the Conservative Association extended a cordial non-partisan welcome to the distinguished guest.

At largely attended night meeting the Premier emphasized the immigration and naval policies while Hon. Mr. Graham dealt with transportation.

CLEARING HOUSE AT LETHBRIDGE

Lethbridge, August 3.—The city bank managers to-day established a clearing house association under the presidency of R. F. Rieve, of the Bank of Montreal.

NO EVIDENCE YET ON MURDER CHARGE

Arthur Newton, Crippen's Counsel, Says He Is Not Discouraged

NO CONFESSION AS YET

Scotland Yard Says Rumors That Crippen Has Admitted Crime Are False

London, August 4.—Arthur Newton, the solicitor who will take charge of Crippen's defence, has issued a statement regarding the case as follows:

"It seems to me upon the evidence already available that the case against Dr. Crippen is not one to discourage me in the smallest degree. So far as I can see there is not any kind of evidence that a murder has actually been committed."

Confession Rumor Unfounded

"I am in telegraphic communication with Crippen and the statement that he confessed is quite unfounded. I am applying to the authorities for copies of the deposition of the witnesses, and all other available documents."

Scotland Yard Says "No"

London, August 4.—Supt. Forest of Scotland Yard again gave his personal assurance that not a single word had been received from Inspector Dew that Dr. Crippen had confessed. He added that if the confession had been made he certainly would have been informed.

Liverpool, August 4.—Sergeant Mitchell left to-day with papers for Crippen's return.

CULTIVATION IS ONLY SAFEGUARD

Dr. William Saunders, Superintendent of Experimental Farms, Gives Warning

"I think it would be safest to expect a crop considerably below the average," said Dr. Wm. Saunders, superintendent of experimental farms, who is a visitor in the city accompanied by Mr. W. T. Macoun, horticulturalist for the Dominion experimental farm at Ottawa. Dr. Saunders is making his annual inspection tour.

Dr. Saunders did not feel that he was in a position to make any positive statement as to the yield this year in the country through which he passed, with the exception of the places at which he stopped. Dr. Saunders said that he was disappointed with Saskatchewan. "After we entered Alberta things began to show an improvement," he said. "While the grain was short in places, the crops were more in the neighbourhood of the average, especially the wheat."

Cultivation of Land Pays

Dr. Saunders pointed out the value of proper cultivation and the benefits to be derived from the following of proper methods.

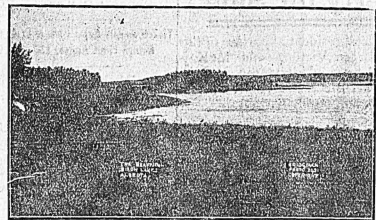

"Where the land was well cultivated, and farmers were careful, the crops were good, notwithstanding the poor weathering conditions, while those growing under equal weather conditions and not properly cared for, are poor."

Mr. W. T. Macoun, who accompanies Dr. Saunders, and who is a son of Professor John Macoun, Dominion botanist, will in the future report Dr. Saunders of the horticultural work in connection with experimental farms, the latter finding that the increasing work in the experimental farms too arduous. Dr. Saunders will, on the 8th of October next, have completed 24 years service in experimental farm supervision. Mr. Macoun stated that from the impression he had received from the trees growing here that the climate must be the most moderate compared with that of the other places he has visited.

Both the visitors were very much impressed with the appearance of this district.

JOIN EDMONTON AND SLAVE LAKE

Government Telegraph Reached Grouard Yesterday—First Message to Capt. Griesbach

Captain W. A. Griesbach was the recipient yesterday afternoon of the first telegraphic communication from Grouard, over the new government wire which was just completed to Lesser Slave Lake yesterday. The wording of the message was as follows:

"Grouard, August 3rd."

"W. A. Griesbach, Edmonton: 'First telegraphic communication from Lesser Slave Lake.'

(Signed) OLIVER TRAVERS."

Captain Griesbach was also the first to receive a long distance telephone message from Fernie, B. C. Subsequently, Secretary Fisher of the Board of Trade received a telegram over the same wire from Grouard signed by Mr. J. H. Morris of the Cornwall Press Excursion, which has evidently arrived at that point.

"Much pleasure in sending greetings on behalf of north country to your board on telegraph line completed today as far as Slave Lake. The following wire was sent by the Board of Trade to Mr. J. H. Morris, this morning:

Revelion Bros. also received a message from Lesser Slave Lake from their representative there, and they lay claim to the honor of having received the first one to come over the new wire from that point.

Board of Trade Replies.

The following wire was sent by the Board of Trade to Mr. J. H. Morris, this morning:

Greetings heartily reciprocated by members of board. Best wishes for pleasant continuation of journey. Those members appreciate great value of Mr. Griesbach's undertaking. North country will be appreciated well known.

F. T. Fisher.

EARL GREY LEAVES FOR THE FAR NORTH

Was in Winnipeg Yesterday—Will Visit Lower Fort Garry and St. Andrews

Winnipeg, Aug. 4.—Earl Grey and his party left Winnipeg at midnight on a special train for Selkirk. Tomorrow they will visit lower Fort Garry and St. Andrews, and in the evening embark on the Wolverine for Norway House and the far north.

REVOLT IN HONDURAS.

Cebu, Honduras, August 4.—Revolt has broken out in many points in the country. Americans at Tegucigalpa fled. E. President Bonilla's troops are nearby. The city. Davilla is in surrender.

BANK CASHIER GUILTY

New York, Aug. 4.—Erwin J. Russo, the young cashier of the Russo-Chinese Bank in this city, whose dealings from the bank's security box resulted in a loss of upwards of \$50,000 to the institution, pleaded guilty today to the indictment found against him in connection with the embezzlement. He was remanded for sentence till August 11.

MACKENZIE & MANN TO FISH FOR WHALES

Will Also Catch Sharks and Halibut—Acquire Option on Pacific Whaling Co.

Victoria, B.C., Aug. 4.—Representatives of Mackenzie and Mann, have secured an option on the entire holdings, valued at a million dollars or more, of the Pacific Whaling Company, on this coast. The deal whereby this industry is to be turned into the company commanding a capital of several millions, will be shortly consummated. Arrangements are being made to extend the company's operations to halibut and shark fishing, the latter industry being the first of its kind in the world.

The capital will probably be raised in London. The extension of operations will mean new industries such as glue factories, and oil refineries for lubricants, as well as illuminating oils. Additional advantages are expected from the fact that new purchasers are interested in railroads and coal mines, and therefore they will be able to seek and command new markets.

THREE KILLED BY ELECTRIC SHOCK

Men Were Working in Concrete Pipe, When Insulation Was Torn Off Wire

Niagara Falls, Ont., Aug. 4.—A fatal accident occurred here yesterday by which Albert Collett and George Bruce of this city and Patrick McLaughlin of Niagara Falls, N. Y., lost their lives while at work in the new concrete pipe line of the Ontario power company. Together with a score of other workmen the three victims of the accident were engaged in removing the iron forms used to brace the falls of the re-inforced concrete pipe when under construction, a form about 300 feet from the lower end of the pipe was being removed when it came in contact with the electric wires running through the pipe to supply the incandescent lights. A small portion of insulation was torn off, the men removing the brace being hurled away as though shot from a galling gun. Half a score received a shock and three were killed. There was only a voltage of 100 passing through the wires, but the damp concrete of the pipe in which the men were standing made the shock sufficient to cause death.

AID FOR CAMPBELLTON

Deputation from Stricken City Wait On Cabinet in Ottawa

Ottawa, Aug. 8.—A delegation from Campbellton, including Judge McLatchie, chairman of the relief committee, F. R. Carvel, M. P., Jas Reid, M. P., and Mr. Thomas Malcolm, interviewed the cabinet ministers who are at present in the city this afternoon. They received favorable consideration of the request that the government render the municipality aid. On the Premier's return it is expected the city will receive aid in the shape of the government assuming the \$8,000 per year interest on the bonded indebtedness of the city.

RUMOR ANOTHER BONUS

Lake of the Woods Stocks Goes Up on the Exchange

Montreal, Aug. 4.—Renewed strength in Lake of the Woods common stock aroused once again the gossip of hostile dividends and another bonus for this stock. One rumor has it that a dividend for the quarter at the rate of ten per cent annum would be declared, but Mr. McEighen, the president, states emphatically that no one is in a position to say anything at all about it.

If you have been troubled with shoe troubles try a pair of Slater's, at Kelly & Moore's.

FOUND BEAUTIFUL LAKE

I. L. Seymour Returns from Country Along A. & G. W. Route

Mr. I. L. Seymour, the civil engineer who has been out with his party surveying townships seventy miles north of Edmonton, south of Lac la Biche, arrived back in town last night. The country around township 67 south of the lake Mr. Seymour said, is good for parts for agricultural purposes—the townships to the west of the A. & G. W. route being mostly marshes but the land to the east is excellent agricultural land.

About sixty miles from Edmonton, and about seven miles from the line of the Alberta and Great Waterways Mr. Seymour says there is one of the most beautiful lakes in the country. It is called Long Lake on account of its being long and narrow and is heavily timbered all round the beach, which is a fine sandy one, excellent for bathing. There is plenty of fish in the lake, whitefish and pike, a number of which were caught by Mr. Seymour's party.

This lake being so close to Edmonton and such an ideal spot should make an excellent summer resort for the people of this city.

NO TRACE YET OF THE MISSING MAN

Police Have Been Unable to Locate Meredith's Home—May Search H.B. Reserve

The police are still looking for George Meredith, the Lacombe farmer, who disappeared so mysteriously a couple of weeks ago while in the city. Chief Langey tried to locate the missing man's home, but was unable to do so. On communication with the town authorities he received a reply that the only man by the name of Meredith in that vicinity was one Ernest Homestead was near Wessville post office. Chief Langey, has now written to the postmaster at that place to find out if the Meredith mentioned is the same man who is missing.

Falling any satisfaction at that, it is probable that a search of the Hudson Bay Reserve, where the missing man was reported to have gone on the day he disappeared, will be made.

HAD REGULATIONS PASSED YEAR AGO

But Rules Governing Fishing in International Waters Still Unenforced

Ottawa, August 4.—It is more than a year since the regulations drawn up by an international commission for the conservation of the fish in international waters, between Canada and the United States were received by Great Britain, and the United States and the application of the regulations appear to be as far off as ever.

Canadians Complain.

This delay has provoked serious complaint on the part of Canadians who are interested in the fishing in inland waters, especially as the United States Senate has made no move to put the regulations into force on the American side of the frontier. It is thought that the delay on the part of Washington is due to the influence of American fishermen in Saginaw Bay and Lake Huron, who have strongly opposed the introduction of any more stringent fishing regulations in the Great Lakes.

LAKE OF THE WOODS STOCKS GOES UP ON THE EXCHANGE

Montreal, Aug. 4.—Renewed strength in Lake of the Woods common stock aroused once again the gossip of hostile dividends and another bonus for this stock. One rumor has it that a dividend for the quarter at the rate of ten per cent annum would be declared, but Mr. McEighen, the president, states emphatically that no one is in a position to say anything at all about it.

NO FUTURE FOR THE NORTH IF RAILWAY IS NOT BUILT

"What I want to emphasize," said Bishop Holmes, to a Capital reporter this morning "is that in three years' time there will be starvation in the Grand Prairie if there is no railway there by that time. The trails are so bad and the means of exit from the country so inadequate that the people will have no market for their produce."

Bishop Holmes, who arrived in the city yesterday, told the Capital that he had been in the Grand Prairie country for twenty-four years, and during that time has been to town very seldom, indeed he was in the district for ten years at the outset without getting a holiday. His diocese is a large one, extending north to Fort Vermilion and when it was first started 35 years ago it was almost entirely among the Indians.

"Now," he said, "we are getting quite civilized. You hear men telling about the hardships they endure in the country—out what about 24 years ago when our only means of travel were dog trains and canoes?"

Crops Are Good

This year the crops, considering the season, said the bishop, "are very good. Of course, it has been a dry year," he said, "but still we may expect a pretty fair harvest."

"The worst bit of road into the country is that between Athabasca Landing and the Lesser Slave Lake settlement, and at this season of the year it is absolutely impassable for anyone to get into the country according to Bishop Holmes.

"It would be absolutely foolish to try to move in now," said the bishop. "The best time for that would be about the middle of February."

"The settlers in there now," he said, "are an excellent class of men, mostly English and American, and they are going at it in the right way—they are going in for mixed farms."

"But," said the bishop, most emphatically, "there will be no future for them if they don't get the railway."

SIR WILFRID AT ST. ALBERT

In connection with the Sir Wilfrid Laurier reception and picnic at St. Albert on August 3rd the Canadian Northern Railway will operate special excursion trains from Edmonton to St. Albert and also from Morinville to St. Albert. The schedule will be as follows:

Leave Edmonton 10:30 K. Arrive St. Albert 11 K.
Returning leave St. Albert 12:40 K. arriving Edmonton 18:15 K. From the Morinville end the train will leave at 8:30 K. and arrive in St. Albert at 13:15 K., returning leave St. Albert at 16 K., arriving Morinville 16:40 K.

With Canada's greatest living statesman as the attraction and the convenient train service arranged for it is certain that a large number will avail themselves of the opportunity to meet the silver tongued orator.

CAPTAIN KILLED BY FALLING BOOM

John Whiteside Killed on Canadian Northern Docks at Winnipeg Today

Winnipeg, August 4.—Captain John Whiteside of the Merchants' Mutual Steamship Company's Boat, Arcadia, was killed in his boat at the Canadian Northern Docks this forenoon. The boat was discharging a load of cement and while the captain was standing near the boom of a derrick it broke, the beam falling and dashing his brains out on deck. The captain's home is in Buffalo, where he leaves a widow and one child.

OFFICERS INDICTED

New York, August 3.—The grand jury, which has been probing the government's complaint against the United Wireless Company, charging the use of mail in the furtherance of a scheme to defraud investors in the company's stock, turned in a number of true bills today. It is said that six persons are named in the indictments including Christopher Columbus Wilson, president of the corporation; S. S. Bogart, vice-president, and W. W. Thompkins, president of the New York selling agency, a subsidiary of the United Company. These three men were taken before the United States Commissioner Shields this afternoon.

AFTER MORE MONEY

Vancouver, Aug. 3.—The C. N. R. has made overtures to the provincial government to secure aid in financing the construction of hundreds of miles of branch lines in various parts of the province. In all probability the matter will be dealt with at the coming spring session of the Legislature.

DROWNED AT PINCHER CREEK

Lethbridge, Aug. 3.—Samuel Wickliff, an Irishman, took a canoe and was drowned while bathing in the South Fork river near Pincher Creek. He has been in Canada four years and was working with the C. P. R. bridge gang.

ANNUAL CRY FOR HARVEST HANDS

Need Laborers All Through the West—Railways Want Them Also

Winnipeg, Aug. 4.—The local immigration officers and employment agents report a serious shortage of labor in the west, especially in those districts where harvesting has started. If this scarcity is not speedily mitigated by excursions, of which there are yet no signs, a considerable loss will undoubtedly occur to farmers. The farmers, however, are not the only complainants, as railway contractors also are unable to secure all the men they require.

Collingwood Schrieber, who is inspecting the Prince Rupert division, is authority for the statement that the work is not progressing as fast as could be wished owing to the scarcity of laborers.

PRINCE HENRY HURT.

Broke His Collar Bone by Falling From Bicycle.

Amsterdam, Aug. 4.—Prince Henry Consort of Queen Wilhelmina, was badly hurt, as a result of his bicycle today. His collar bone was broken and he suffered internal injuries. He has cancelled his proposed visit to the Exposition at Brussels.

GOLD STAMPEDE AT H. B. JUNCTION

Half Breed Came in With Pockets Bulging With Nuggets—Everybody Went

Prince Albert, August 4.—Reports from Hudson Bay Junction state the town is greatly excited over the alleged rich discovery of gold thirty miles north of that place. Practically every male inhabitant has gone to stake a claim, including the postmaster and the station agent at Ft. Smith. There is some mystery about the discovery, but a half-breed who came into town with pockets bulging with nuggets is understood to have caused the stampede.

CHARGED WITH MALPRACTICE

Prince Albert, August 4.—Dr. Hawley of Melfort, was arrested charged with illegal practice in the case of Mary Scott, who died in convulsions at the hospital here. Hawley was admitted to hall and will appear at the Prince Albert Assizes.

KING DECORATES MINERS.

Sixty-two Men Presented with King Edward Medal.

London, August 3.—King George at Marlborough House in the presence of the Home Secretary and other government officials decorated sixty-two miners for conspicuous gallantry in the recent colliery disasters, presenting them with King Edward medals.

Much of our comfort and all of our discomfort comes from ignorance.

OFFER FOR MANNING

The Chicago White Sox are said to have made an offer of \$1500 for Pitcher Manning of the Calgary Rough Riders. The Alberta states that offers have also been made for Paddock, Clynes and Smith. That will be good news to Manager Brown of Vancouver, as we believe Smith belongs to that club.

Since the Miners struck a losing streak the Lethbridge Herald has started to get under Manager Lynch. The latest assertion is that he does not take his pitchers out of the box when they start to weaken.

THE AWFUL SILENCE

The Daily Capital is still awaiting an explanation from the Journal in regard to the misappropriated despatch. We realize that it is a difficult matter for the Journal to cook up a suitable explanation to such a grave charge, but still we would like to hear what they have to say on the subject.

We seem to faintly remember, that in one of their attacks on the sporting editor of The Capital, the Journal made use of the expression "a real paper." Now we know what the Journal's idea of a "real" paper is.

There used to be an old saying, "If you must be understood, all very well, but don't get caught." The Journal has been caught with the goods, as we have the original of the despatch in our possession, and are now waiting for an explanation from the talented young gentleman on First street.

ST. GEORGES AND CALLIES A.

Interest is at fever heat among the football enthusiasts of Edmonton over the coming struggle on Friday evening, St. George's and Callies meet at Diamond Park to decide the championship of Division A of the City Football team. There could hardly be found anywhere, two more evenly matched football teams. The entire match will be nip and tuck. Mr. T. C. Atkinson will handle the whistle.

CALGARY CALLIES FOR EAST

May Make Trip to Toronto to Defend the Peoples Shield

Calgary, Aug. 4.—While the official announcement has not been made yet, the chances are that the Callies will journey to Toronto to defend the Peoples shield.

There will be a meeting of the Callies shortly to decide the course the club will pursue. Though it is manifestly unfair to ask the shield possessors to travel thousands of miles to defend it, the club may consent to send the team. It will take a lot of money to finance the trip, in case the team goes to Toronto, but generous contributions may be expected.

NEXT YEAR'S LEAGUE

A Calgary paper is looking ahead to next year's baseball, and has in its mind's eye mapped out a circuit. It contends that Calgary, Edmonton, Fernie and Cranbrook, Medicine Hat and Lethbridge would make a tidy league. Perhaps? But there is one thing certain and that is Winnipeg and Brandon will not be playing ball with Edmonton and Calgary in 1912. The time has come to cease running the Western Canada League for the benefit of the C.P.R. and C.N.R.

Jack Corrigan, who was a member of the Lethbridge team last year, joined the Miners on Saturday.

PLAYERS MUST THINK FOR
THEMSELVES IN BASEBALL

It is the Team With the Quick Thinkers That Wins Games, Not the One With Many Signals

Every ball team has a system of play and yet these do not differ materially, though one team may have more signs than another.

Up-to-date managers try to bring their players to a point where they do their own thinking, for it is found that this, after all is the best system on which to run a team successfully.

Individual generalship—cases in which the player undirected by his leader, brings off a striking play—are innumerable. Like the players of science team work, they make a hero of the man who succeeds, while the poor fellow whose plan miscues is the butt of wild derision, and, in short, becomes the "punch" of the occasion. Such individual displays of nerve and judgment are, as a rule, strikingly characteristic of the man who makes them, and are seldom equalled by an imitator. William Lange, for example, a gigantic player of the Chicago team, fleet as a deer despite his colossal size, would often stand quietly on first base till the catcher had the ball. Then he would dart to second, trusting on the surprise occasioned by such a move to make the throw wild or the batsman's catch uncertain. In nearly every case Lange succeeded in the steal.

Jimmy Callahan, a fleet-footed player of the same period, had a trick of rounding first at full speed and keeping on to second when he saw a hit go anywhere in the outfield. Callahan held that the fielder, astounded at his daring, would fumble or throw badly, and in nine cases out of ten his guess was right.

Mike Kelly, Hughie Duffy and Tom McCarthy, brawny Irishmen of the long ago, devised half a dozen ways of wriggling to a base and dodging the hands of the guardian. Bob Gleavin who left the game to become the editor of a religious newspaper, invented a way of pushing the bat at the ball with rigid arms and a sweep of only half distance that netted him scores of hits—short, sharp flies that passed over the infielder's heads, falling just behind them. Individual tricks of batting and base running have been counted by the myriad, and all lent their sparkle to the game.

Players Like Soft Soap

Generalship that doesn't apply in the actual principles of mechanical play, so comely tremendously, is the science of jolting players outside the game, and of cheering them along till they put forth innumerable efforts, all unconscious of their being the recipients of the soft soap called "con."

The best work of the kind that has been done in recent years was the way in which Frank Chance and Charlie Murphy handled Harry Steinfield and Jimmy Sheppard. Chance told Murphy that these two men, added to the roster of the Cub team, could win the flag. Both men at this time, 1905, were considered "all in," and practically worthless. Sheppard was condemned in Brooklyn for his sullen, surly disposition, and was believed to be the meanest proposition any manager could attempt to handle. Steinfield was regarded as a sulky German of the mulish kind and had become extremely ill-liked in Cincinnati and in the Red Ball club. Murphy got them both in trades, giving equivalents far under their value, but apparently aimed in view of their alleged qualities. "Mind their failing quality. The result? Both men turned in playing magnificent ball for Chicago, and were vast factors in the winning of three flags.

"How did you do it?" asked an old-timer who had been among those hostile to Steinfield and Sheppard, and had predicted that both would be failures in Chicago. "How on earth did you get those fellows to behave the way they've done?"

Murphy gurgled with laughter. "Easiest thing in the world," said he. "I have simply treated them as gentlemen and good ball-players and they have shown me that I made no mistake."

GLASSCOCK'S SCHEME

Twenty years and more ago, Jack Glasscock was handling the Indianapolis team. It was way down in the race, but played good ball. The New Yorks, playing at their fastest stride, the pace that won them the flag that season and the championship of the world, came along late in the schedule, and Glasscock was wild to beat them. He had only two effective pitchers ready for the brute. One of them was a lazy fellow, who hated to work often that was absolutely necessary to keep him on the pay roll; the other was Amos Rusie, then at the threshold of his great career.

"Say, old man," said Glasscock to the lazy fellow, "go in and beat them today, and you won't have to work again this week." The lazy man nearly flung his arm off, and New York was beaten. Then said Glasscock to his great young pitcher, "Amos, there are the New Yorks. Beat them today and I'll let you pitch again tomorrow." And Rusie won his game hands down. That was an example of the way to jolly different styles of men.

THE VANCOUVER FARM

An Edmonton newspaper spoke rather slightly of the Calgary ball team, and called it a Vancouver farm, and referred to has been who couldn't make good. The Calgary team is far from being has been. Most of them are youngsters who are on the journey up. Look them over for instance. Here are youngsters, who are sure to make a future: Manning, Geddes, Gaddy, Standridge, Paddock, Duggan, Smith, Clynes, Flanagan and Connors. Here are the veterans: Stanley, Kelly and Carney.

Look over the Edmonton team and size them up. Here are the youngsters: Mills and Morse. Here are the veterans: Spencer, Dell, Hickey, Dell, Blaxter, White, Brennan, Cox and Jassi.

As the above-mentioned article appeared in the Capital, we wish to make a slight correction. A farm, in baseball parlance, is not a last resting place for decrepit ball players. It is generally a town to which green players are sent by major league teams, for required experience. The Alberta, has taken us up entirely incorrectly when it brings in the subject of has been.

THE BERRY PICKERS

Saskatoon, Aug. 4.—The baseball club has decided to christen the newly acquired ball team the Berry Pickers, the town having received its name from the large quantities of succulent blue berries in the vicinity.

REGINA WILL
PROBABLY STAY

A Second Message Has Been Sent to the President Asking Him to Dofer Action

Regina, Aug. 4.—Skeels was the winning pitcher again, the locals taking the last of the series with Lethbridge. With the Miners leading 3-0, Lezie was batted out of the box in the fourth. The locals made all of their five hits in a cluster. With the scored Joss. Miller was sent in and after tanning one man he made an over-throw to first on the next and permitted the winning runs to cross the plate. Another was scored in the eighth on a walk, a wild pitch, and infield out and a sacrifice fly. Skeels was invincible after the fourth. It is expected that the local difficulty will be adjusted without resort to the league. A second message has been sent to the president to defer any action.

Score by innings:

Lethbridge	011 100 000-3	6 2
Regina	000 000 010-5	5 4
Batteries—Lezie, Miller and Ward; Skeels and McIntosh. Umpire, Wheeler.			

A NEW WRESTLER

Budd Burt received a wire last night from his brother, saying that he would be in Edmonton on Friday to help train him for his bout with Young Maxwell.

Myand Burt is a middleweight boxer with a splendid record, and is said to be quite as clever as George Lege. He may give an exhibition in Edmonton in the near future.

"FRISKED" FOR GUN

(Vancouver Province).

After the Vancouver team had gone to its dressing room, Constable Ed Johnson searched one of the Vancouver club supporters on the steps for a revolver which he was supposed to have. The gentleman in question never owned a gun, let alone carried one and the search was fruitless. Thereupon the bystanders started to jeer the cop and somebody threw a bottle of liniment out of the Vancouver dressing room at him. It struck the policeman on the cheek bone and caused a slight abrasion. With blood streaming down his face the constable took his whiggle for help and the entire Westminster police department arrived on the run. The names of all the parties in the dressing room were taken, and then the crowd was dispersed.

SHOULD PITCHERS BAT?

Louisville, Aug. 4.—Daniel Shay, of the Louisville team, doesn't believe that a pitcher should be allowed to go to bat. Last winter he tried to get the American association to adopt a rule providing for a utility man to bat for the pitcher, but the owners had too many other things to discuss, and the matter was overlooked.

"With the pitcher to do only pitching, it would make a better game," says Daniel. You never saw a pitcher go to bat in your life that the crowd didn't lose hope. They don't expect a pitcher hit the ball, and they rarely do. Then with a pitcher only pitching, he'll do better work on the rubber. He wouldn't be under such a strain, and could really rest between innings. A pitcher has enough to worry about without going to the plate wondering whether he is going to get hit in the head."

There is a member of the Kansas city team who is experimenting with bats oiled with compressed air. It has been proved that an ordinary hitter can knock a ball loaded with compressed air to great distances. So this player believes a bat loaded the same way would act in the same manner.

MANY TROUBLES
FOR JOHNSON

Mistah Pindah is Hot on His Trail, Also Lady Who Claims to be Mrs. Johnson No. 1

New York, Aug. 4.—There's no rose without its thorns, and nobody realizes this better than Jack Johnson does at the present moment. Yesterday Mr. Norman Pinder the foolish negro who refused to "buy wine" for Jack in Baron Wilkins' resort last spring and got a licking came on the job with a new process of law and had the champion placed in a position where he had to produce some big money so he could walk around free-lick. And Pinder, with his followers, is busy dopping out new lines of attack. He'll be heard from later, he says.

Then too, Mrs. Jack Johnson No. 1 is in town with fire in her eye and a long, low rakish desire for vengeance in her artless heart. Mrs. J. the first insists that she was and is the only person entitled to the name of the doughy man-killer, and she sure has the papers to prove it. She has ever so many papers. There's a stack of them a yard high in her apartments in the Albany, and she hopes to make Jack recognize her right to be the sole recipient of his golden smile and a beneficiary of the big wad of greenbacks that Jack has put away somewhere.

ALTA. ELEVEN LOST

Winnipeg, Aug. 4.—Yesterday furnished some more exciting cricket in the big tournament. Saskatchewan met Alberta and the former only succeeded in winning by six runs, while Winnipeg gave Manitoba an unexpectedly close game, Manitoba winning by 21 runs. This was mostly a bowlers' day and the whole play was marked by low scores and a fielding. Saskatchewan could do nothing with Spick, who took seven wickets for 34 runs. Saskatchewan's total was 27; 57 off these Heathcote made over half the run, 33 when he was unfortunately run out. Vidal was the only other Saskatchewan player to reach double figures, scoring ten. With Saskatchewan only 57 up it looked like an easy win for Alberta, but the Sunny Province batters could do nothing with the bowling of Vidal and Price, the former being in particularly good form, claiming eight wickets for only eighteen runs. Price taking the other two for thirty-two, the finish being most exciting.

The Albertans made a great finish looking like winners when their tenth man was declared out, leg before wicket, on what was a doubtful decision, when six behind. The winning Manitoba team were expected to overwhelm Winnipeg, but were really fortunate in pulling out a victory. Horrobin was in great form, bowling for the city, the provincial representatives being dismissed for 106. The city, however, were off in batting and their aggregate was only 86.

BURT AND YOUNG MAXWELL

Both these fighters are working hard to get into first class shape for their fifteen round bout in Strathcona. There is no danger of the exhibition not taking place, though there was a little discussion at the Strathcona council meeting on the subject, it was finally decided that the Chief of Police was the best judge and everything will be left to his discretion.

At the Burt-Johnson bout a number of the Strathcona constables were in attendance and could find nothing disorderly or contrary to the law. In fact everybody in the hall was unanimous in stating that they had never attended a more orderly fight exhibition. It is the intention of the promoters to conduct the Maxwell-Burt bout takes place August 12th.

ERRAND BOY TO MAGNATE

Rochette Had Handled £8,000,000
When He Was But a Young
Man of 25 Years

The "affaire Rochette," in which the honor of ex-Premier Clementine of France is involved, has brought before the public a career as romantic as any in the history of finance. Raoul Henri Rochette is the son of a market gardener, and yet at 25 years of age, he had already handled something like \$8,000,000, says the London Mail.

Began As Errand Boy

Born in the tiny village of Melun in 1878, he attended the primary school with other little peasants, his good conduct and intelligence being so remarkable that his master, already dreaming of a brilliant university career for the boy when the older Rochette put Henri to work as errand boy. While still in his teens the boy was left a few pounds by a relative, and at once came to Paris to study bookkeeping and other commercial subjects. Then he obtained a post in one of those small "banks" which are continually appearing and disappearing in Paris. The bank soon went smash, and Rochette thought he saw his chance, and on the recommendation of his employer's bank he formed a company to exploit the Rio Tinto mines.

A Four Years' Wonder

Henri was then 23 years of age. He managed to keep afloat for two or three years, and then went under. But not for long. He had the experience that he wanted. He had an insight into the inner workings of "finance," and in November, 1904, he burst upon the market with the "Mining and Industrial Credit Company," with an initial capital of £22,000. Then followed the creation of a journal, "Practical Finance," whose raison d'être was clearly not to keep silence about M. Rochette's ventures. Success came rapidly. In less than a year the original capital of the Mining and Credit was raised to £120,000. Other ventures followed thick and fast, and by June, 1907, nine companies with a total capitalization of £2,168,000 had been successfully floated.

Works Fifteen Hours a Day

The capacity for work of the man is marvellous. Unlike so many "financiers," who in their hours of ease are pleasure-lovers, roués and clubmen, Rochette divides his time between his home and his office, and the office gets from 7 a. m. till 10 p. m. So indefatigable a worker is he that his motto: care is fitted up like a small office, so that not a minute need be lost.

His arrest was the outcome of a war to the death that was being waged between him and other so-called financiers. Over and over again he has demanded his release on bail, pointing to the fact that he had £400,000 in hard cash at the time of his arrest. He was finally released on £12,000 bail, and in the end was committed for trial before the correctional court. This trial has been going on for six months.

CONSERVATION IS MOST IMPORTANT

Irrigation Convention Commenced Yesterday at Kamloops—Good Attendance

ADDRESS BY SECRETARY
Delivered Striking Speech on Forest Resources of the Whole Dominion

Kamloops, B.C., August 3.—The Annual Convention of the Western Canada Irrigation Association opened here today with an exceptionally large attendance. The convention will continue for three days. The address by James White, secretary of the commission of conservation, was the feature of today's session. Mr. White said:

The various ways in which Canada today is wasting her natural wealth and the means by which this waste can be eliminated were set forth in a comprehensive manner by Mr. James White, secretary of the commission of conservation in an address before the convention. The address throughout was reinforced by ample statistical data and was replete with suggestions for the more economic exploitation of Canadian natural resources.

As To Mineral Resources.

Speaking of mineral resources, Mr. White said that special care should be taken in getting the greatest possible value out of mineral deposits because, once exhausted, these could never be replaced. The mineral industry was rapidly growing in importance, the product of Canadian mines having increased from 1 1/2 million dollars in 1880 to 90 1/2 million dollars in 1909. This country's relatively small standing in the production of several of the metals was shown by the fact that last year she produced 11 per cent of the world's production of silver, 63 per cent of the nickel and 20 per cent of the asbestos. As for waste in mining, the coal industry stood very prominently, it being estimated that up to the present time one ton of coal was lost for every ton mined. He advocated the bringing of slack for the mines, the use of coke ovens that would save the valuable by-products and the adoption of the long-bar method of mining which permits of more economy in the mining of coal was amply demonstrated by the rising price of anthracite.

Reclaiming the Tailings

When the Cobalt mines began operations the low-grade ore was thrown in vast heaps along with the rock and waste. Now many of the mines were going to the expense of re-handling these "dumps" in order to secure the silver contained in them. "The tailings from the 200,000 tons milled this year," counted Mr. White, "will carry nearly 1 1/2 million ounces of silver. By the end of 1910, there will be upwards of 2,200,000 ounces in the dumps, worth, at present prices, upwards of 1 1/2 million dollars." The continuing improvement in methods for utilizing low grade ores had shown the folly of throwing away ore containing mineral content of any value.

In dealing with our forest resources he claimed that the supply of timber had been considerably over-stated owing to estimates having been made founded on the assumption that forests containing high-grade timber extended into the far north. Prince Edward Island had practically no timber, only about one-tenth of Nova Scotia's area was virgin forest. New Brunswick timber lands had been devastated by disastrous fires and the pulp in the Ontario forest reserves at the present rate of cutting was estimated to last not more than 10 or 12 years. In Northern Ontario, North western Manitoba, Saskatchewan, Al-

beria and British Columbia, forests fires had been responsible for extensive damage.

Locomotives Responsible
The problem of how to cope with forest fires was one that demanded immediate attention. Where railways traverse the country, the locomotives set more fires than any other agency. In the Adirondack forest preserve the only railway that had been free from fires had used oil fuel during the summer. Electrical operation through forest land had been proposed but this, in most cases, was too expensive. The number of forest fires set by railways would be greatly reduced if the right-of-way was cleared of inflammable debris.

"First," he said, "do not start in the forests of Germany although railways run through them. In Canada, it would be an injustice to force the railways to burn oil fuel on account of the high cost, but it is not too much to demand that they clear the right-of-way and keep it clear; that, during the fire season they patrol their tracks following up the trains particularly where the heavy grades necessitate a maximum draught, and that they inspect their grates and stack screens at the end of each division. In dry weather, an engine with a defective grate or screen will set scores of fires on every mile of line."

As To Fisheries

Of all our industries none needs more attention, he claimed than do our fisheries. The oyster and lobster fisheries were shown to be in a most deplorable condition. In 1881, the oyster production was 189,127 barrels; in 1905 it was 35,027 barrels. The lobster catch declined from 24,000 tons to 5,200 tons in ten years. "So far as the oyster fisheries are concerned," said Mr. White, "oyster culture should be encouraged and developed, but this must be preceded by a final decision respecting the title to the foreshore—whether it is vested in the Dominion or in the provinces." Since 1873 the white fish catch in Ontario had fallen off 50 per cent, whilst the average catch of Fraser River sockeye salmon had decreased from 375,000 cases in 1901-5 to 221,000 cases in 1906-5. In these two cases, international difficulties had prevented proper regulations, but it was hoped that the new international commission would remedy existing conditions.

Most Valuable Heritage.

The land, as our most valuable heritage, of course, deserved a large share of careful attention. Five hundred and thirty-three millions of dollars represented the value of our field crops last year and our agricultural exports aggregated 51 per cent of all our exports. True, our average wheat yield last year of 21 1/2 bushels to the acre as compared with that of 1934 in the United States, was most gratifying, but it was due, not to improved methods of farming, but to the fact that we are annually putting so much virgin soil under cultivation. We should not be blind to the absolute necessity of improving methods of cultivation, better crops rotation and of keeping down noxious weeds and exterminating insect pests.

The water powers of Canada had not yet been appraised at their true value. Roughly speaking they had been estimated at 1 million h.p. Although only about half a million h.p. of this had been developed, it nevertheless provided power equivalent to one and a half times the coal annually used in Ontario. Referring to the extensive storage basins under way on the Ottawa River and the Alberta irrigation enterprises were stated to be the most important feature in the agricultural development of the provinces.

What Medicine Has Done.

What scientific medicine has done to increase the length of life of the average individual was shown by statistics covering the last four centuries. In the sixteenth century the average life span was 21 years; by the eighteenth century it had increased to 33 1/2 years and to-day it stood at 40 years. But there was yet a tremendous work

for preventive medicine to do. "There are at the present time," said Mr. White, "250,000 people in Canada suffering from serious illness, of whom 42,000 are consumptives. Probably over half the illness is preventable. Our annual mortality from tuberculosis is about 13,300, from other diseases commonly known as preventable 26,000, and from other diseases now being recognized as preventable 36,000.

"Assuming that three-fourth of the mortality from tuberculosis and other preventable diseases can be stopped, it has been estimated that it would increase our average length of life over fifteen years. Assuming also, the value of each life lost to be \$1,200 and the average person's year invalid to be \$700 per annum, the economic gain would be \$140,000,000."

GETTING A REPUTATION

"Isn't he morbidly cynical?"

"How so?"

"Didn't you hear what he said last night?"

"I didn't hear him say anything."

"He only spoke once."

"Well, what did he say?"

"He said, 'Life is punk!'"

GENEROUS

"Joseph," said his mother, reprovingly, "I should think you'd be ashamed to be in the same class with boys so much smaller than yourself."

"Well, mother," replied Joe, "I look upon the matter in a different way altogether. It makes me feel fine to see how proud the small boys are to be in the same class with a big boy like me."

"The Rosary," by Florence L. Barclay, is being read by all pleasure seekers. Little has this book.

WHERE ARE THE AVERAGES?

The Calgary papers announced yesterday that the Western Canada League averages had arrived in the city and were to be released on Thursday. Something seems to have happened to the copies for the Edmonton papers. Perhaps Eckstrom "lost" them.

BARBERS WON GAME

The Knights of the Razor took on the King Edward Hotel last evening at Diamond Park and put them through the mill. The score was 8 to 3. Batteries: Thomas and Oliver, for King Edward; Whitford and Campbell, Empire; Fred Brown, who is still alive but scared.

The winners have accepted a challenge from the Alberta 11-stel.

ALL-STAR TEAM

An Edmonton fan sends in the following as his selection for an all star team: Pitchers, Dellar, Hickey and Heinrich; catchers, Spencer, Cooper; first base, Baxter; second, Connors; short stop, Padlock; 3b, Smith; r.f., Clynes; centre, Lussi; right field, Mills. Utility player, Deacon White

LIGHT BATTING IN N. W.

Lou Nordyke, Spokane's clever first baseman, is now the leader of the Northwestern League batters. Nordyke is hitting .385, and Spokane also has the honor of owning the second man, Cooney, the speedy shortstop, who has .379. Rockfield, Tacoma, is there with the same figures. Frisk is hitting .277 and Charlie Swain has gone back to .274, according to a Spokane man's figuring.

Westminster has beaten Vancouver in five out of six league games this season.

COMMISSIONER'S MEETING

The city commissioners attended to a number of minor matters at yesterday afternoon's meeting. The contract for paving of Third street was given to the Bithulphite Company, but only one block of the work will be done this year, as it was only authorized by the council to start the work if there were enough funds over from the paving of the other streets. The construction of the sewer extensions on Ross Flats was authorized. The city engineer submitted the plans for the work, which will cost \$100,000. The request from residents of several streets in the west end of the city for boulevarding was discussed, but it was decided to let the matter stand for the time being.

YOUR BUSINESS PRINCIPLES

YOUR business principles may be right; your goods the best; your service to customers faultless. But the public has got to know.

Keep always your talking points before the public. Get in the glare of favorable publicity. Make known the merits of your proposition.

Success comes by focussing the diverting rays of public opinion—centering buyers' choice on what you have to offer.

Make your ability, your commodity, your service known. Throw on the light.

REAL ESTATE BULLETIN.

Canadian Investment Co., Ltd., 245 Jasper Ave.

WILL TRADE FOR MODERN house in West End, or as first payment on same, a very choice quarter section 12 miles from Jasper. Nearly all open prairie, fenced and cross fenced, good house, well grained; 30 acres broke and in crop.

TO RENT—GOOD HOUSE, CENTRALLY located in Strathcona at \$15 per mo. Have cash purchasers for houses, also vacant lots in West End.

MODERN LIFE WOULD BE TOO HARD ON THE NERVES IF IT WERE NOT FOR WANT ADVERTISING!

The pace of life has become tense.

Worries, disappointments, up-sets at home and office, losses, discouragements seem to multiply as daily life becomes more complex.

The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the untimely defection of a tenant. Some classified advertising quickly retrieves his loss—and quiets his nerves!

The salary earner unexpectedly loses his position—and his peace of mind. The strain would shortly "break" something in his nervous system if, once more, want advertising did not find the better job—and restore to him his mental equilibrium.

In every phase of the city's life, every day, the want ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives—and keep the modern pace and tension from proving too fast and tight for us.

Truly, the want ads ARE FOR SERVICE!

WANTED

WANTED—A LIVE PARTNER with \$2000 capital for a good paying business in Edmonton. For particulars apply by letter to Box 20, Capital Office.

WANTED—EVERY PERSON who wants employment to send me their name and address, and receive complete outfitting of parties, full particulars of over 50 plans and schemes to make money easy and quick. Address: E. Crossland, 34 Strathcona, Alta. Aug. 2-6.

About Town
Mr. James Fingister died in the city hospital last night. He owns a farm some distance outside the city and was taken from there to the hospital, where he died shortly afterwards.

The provincial publicity department are engaged in preparing material for the next edition of the Canadian Farmer, an agricultural publication with headquarters in Toronto, which will devote its columns in the next issue solely to Alberta, its conditions and possibilities. The Canadian Farmer has a circulation of about 25,000 throughout Ontario and other points, and the edition will doubtless prove very advantageous to this province.

Further details of the reception to be accorded Sir Wilfrid Laurier have been announced. The premier will be met on his arrival at the C.N.R. station at 6 o'clock on Monday evening by His Honor Lt.-Governor Bulger, and the reception committee. Then will follow a torchlight procession to the King Edward Hotel, accompanied by the bands. There will be a banquet to E. A. McDonald, M.P., at the King Edward, by the Maritime Province Association at 9 o'clock, while Hon. Geo. P. Graham and F. F. Farde, M.P., will be banqueted by the Ontario Old Boys Association at the Cecil at 11 o'clock. The meeting in the "Thistle" Club will be presided over by the Hon. C. W. Cross. The speakers besides Sir Wilfrid Laurier will be Hon. Geo. P. Graham, F. F. Farde, and E. A. McDonald.

SQUADRON ORDERS
Edmonton, Alta., August 4, 1910
Traveling Escort—The Squadron will supply a traveling escort to the Right Honourable Sir Wilfrid Laurier on Tuesday in the forenoon of the 9th inst. The escort will parade mounted at the Armoury at 8.30 a.m. in the morning. Dress, review order, with Stetson hats. To command: Lieutenant T. U. Ross.
The Armoury will be open on Friday evening, the 5th, Saturday evening, the 6th, and Monday evening, the 7th, at 7.30 p.m., for the issue of kit. The S.Q.M. Sergeant will govern himself accordingly. Members of the Squadron volunteering for this service are required to notify the O.C. at once. Extra pay allowance, W. A. GRIESBACH, O.C. "A" 19th A.R.M.C.

For satisfaction in jewelry repairing and manufacturing try Ash Bros.

TODAY'S MARKETS
Chicago, Aug. 4.—There was an advance in the entire grain list this morning on covering by shorts. Following the quick upturn at Winnipeg and the price current report on the spring wheat promised, coupled with the lowering of the estimate on the final outcome of the crop in that country, September wheat sold at 102 1/2 to 103 1/2; December at 104 1/2, 104 1/2 to 105 1/2; May 109 1/2 to 109. The closing last night was lower.

Personal
Mrs. Forbes, of the Royal Canadian Mounted Police, left yesterday on a three weeks' trip to the East.
The Hon. Frank Oliver, Minister of the Interior, arrived in town last night over the C.P.R. from Calgary, and will be present to receive Premier Laurier on his arrival in Edmonton. The Hon. Frank Oliver has just returned from his trip to the Yukon, by the way of the Mackenzie River, during which time he covered 8,000 miles and had many opportunities of becoming acquainted with the country.

SONS OF SCOTLAND
Black Watch Camp No. 27, Sons of Scotland, Benevolent Association, held last night at Houston's Hall, what proved to be one of the most enjoyable smoking concerts ever held in Edmonton. The hall was filled to its utmost capacity. For a thoroughly Scotch night, the committee certainly surpassed anything ever given in this city, the whole of the talent being found within the membership of the Sons of Scotland. So they do not have any difficulty in furnishing entertainment for the ensuing winter.

Chief Wm. B. Quinn proved an ideal chairman and his many humorous remarks kept the audience in proper time throughout the entire evening.
Bro. Gordon certainly captivated the company by his excellent exposition of the Highland fling, Irish jig and sailor's hornpipe. For grace and poetry of motion he surpassed anything ever seen here.

Bro. P. K. McGregor gave a most creditable exhibition of the sword dance, and his rendering of Harry Lauder's songs, places him in the front rank of favorites among the Scottish talent of Edmonton.

The Scottish Reel and Reel of Tulloch Bros. Gordon, McGregor, Nicoll and Allan was the outstanding feature of the programme, the effect was delightful, all being dressed in the kilts, the blending of the various strains of the rich strathspey music fairly carried the audience back to Bonnie Scotland. Pipe Major Laing and Piper Ralston gave splendid selections on the bagpipes throughout the evening, also playing for the dancers.

The Scotch selections on the violin by Mr. Brown were most creditably performed, and thoroughly enjoyed by all.
Cigars and lemonade were served throughout the evening.

The rich sweet doir of Mr. Robertson was heard to full advantage in his rendering of old Scotch ballads. The four singers acquitted themselves well, especially Nicoll and Allan in their duets.

Organizer Allan gave a stirring address on Scotchmen past and present, the objects, advantages, progress and development of the Sons of Scotland Benevolent Association, which will certainly bear fruit, as several of those present expressed the desire to become associated with Black Watch Camp.

President McPherson, of the Caledonian Society spoke of the friendly feeling and fraternal spirit prevailing, existing among the members of the three Scotch societies in Edmonton.
At the wee sma' hour alight the twelve, with the singing of Auld Lang Syne, brought to a close what proved to be a most enjoyable evening. Chief Quinn announced that this was the forerunner of many such nights, that the S. O. S. intend holding throughout the winter.

SAD DEATH IN PRINCE ALBERT

Prince Albert, Aug. 3.—Mary Scott, a pretty sixteen-year-old girl, died in the hospital to-day from neglect prior to child birth. The child was born while the mother was suffering from convulsions.

MEDICAL HEALTH OFFICE REPORT

M. H. O. Hands Out Statement for the Month of July

The following is the report of the Health Department for the month ending July 31st, 1910

Isolation Hospital
During the month 29 patients have been admitted, classified as follows:
Measles.....10
Scarlet fever.....8
Diphtheria.....4
Erysipelas.....4
Tuberculosis.....3

Patients discharged, 31.
Smallpox.....3
Measles.....10
Scarlet fever.....10
Diphtheria.....3
Erysipelas.....3
Tuberculosis.....3

Patients still under treatment 16.
Scarlet fever.....5
Measles.....3
Diphtheria.....3
Tuberculosis.....3
Erysipelas.....2

Infectious Diseases
There have been reported 81 cases of Infectious Diseases.

Measles
German measles.....18
Scarlet fever.....13
Diphtheria.....13
Erysipelas.....4
Tuberculosis.....4
Typhoid fever.....6

Measles has continued to be prevalent but is now gradually subsiding. The city fortunately is now remarkably free from typhoid fever, only 3 of the 16 cases reported. The contracted disease within the city as far as can be learned.

Summer complaint of dysentery though not an infectious disease has been very prevalent during the last month, and many deaths among children have occurred. It is difficult to state any specific cause for this affection which appears to be inseparable from warm weather, but several factors no doubt are responsible, chiefly want of proper care in keeping milk cool and free from contamination after delivery, failure to restrict the diet in quantity and quality when the hot weather comes on and chilling of the body due to sudden changes of temperature. The filtration of the city water supply to which some have attributed the affection does not appear to be a factor, as the amount of coagulant used is quite insufficient to have any effect. More important the affection would be much more prevalent than it is if the city water supply had anything to do with it.

During the last month the new Dairy Inspector has inspected the dairies and private cows and his statements are worthy of consideration as follows in his report:
"Sir:

"I have in addition to inspecting all the dairy farms that are at present supplying the city during the month, attempted the inspection of a large number of the individual cows in the city. This is, at least during the present season, a very difficult matter as all inspections have to be done before 7 a.m. During this inspection I have come across quite a number of cows whose owners have no permit contrary to By-law 182. I instructed nine to take out permits, most of whom have done so. The sanitary conditions under which a very large percentage of these individual cows are kept is of the very worst kind. Hardly one of the sheds or barns have every had a coat of whitewash since they were built. One finds cows standing in horse barns where they may be six to twelve hours, cows standing in dirty individual barns and cows standing tied to a bush, the same bush and the same unsanitary spot each night.
Two parties which I inspected were each keeping three cows with only permits for two. I would strongly recommend that the same conditions which are imposed upon dairymen be imposed upon each individual who in the city sells milk and in addition to this, that these cows be tagged in some manner to facilitate inspection and to prove identity.
Respectfully yours,
(Signed) ANDREW LOGAN, INSPECTOR'S REPORT

During the past month of July 10, there were 181 nuisances investigated. 18 were reported by the public, 20 of which were removed. 21 restaurants were inspected; Good, 4; Fair, 3; Bad, 4. 72 tent licenses were issued.

12 Ash Cans were sold.
38 garbage cans were sold.
30 Notices were served on citizens for contravention of the Fire By-law.

The new scavenging regulations have been distributed over a large portion of the city.

W. R. GRAHAM, Inspector.

START THE WORK ON BRIDGE SOON

Some Heavy Bridge Building Going on in Province at Present

Arrangements for the construction of the sub-structure of the high-level bridge will be made on the arrival of the representative of John Gunn and Co., the Winnipeg firm which secured the contract for the work. It is quite possible that Mr. Ernest Gunn, son of the senior member of the firm will have charge of the contract and that he is capable can be vouched for by the fact that he has supervised some of the largest concrete works in the west. The Pembina Bridge was one of their.

On account of the immensity of the work, a large plant will be necessary, and Gunn and Sons will bring their largest to Edmonton, and it is quite possible that additions will have to be made. A large part of the plant is now at Lac du Bonnet.

Construct Land Piers First.
The construction of the land piers and pedestals will be the first portion of the work to occupy a day on the attention platform by professionals in that line.

Band stands have been erected on the grounds, one near the large dining hall and one near the stock judging stand. These will be occupied by the different bands in turn. Near the main entrance a band will be placed from time to time.

If you like good music and plenty of it go to the Edmonton fair this year. This morning the association received forty more entries for the fair.

FORERUNNER OF LAURIER
A member of the Laurier party, Mr. Alexander Smith, arrived in the city last night. Mr. Smith left the party after the meeting at Regina, and has come to Edmonton to spend a few days with his brother, James Smith, of this city, and another brother who lives in Strathcona.

Premier Laurier, said Mr. Smith, is delighted with his trip. It is the first time he has had an opportunity to come in close contact with the people of the West since his tour prior to the elections of 1896, and he is keenly observant of changes that have been made since then.

Mr. Smith noted with appreciation the preparations in the city for the reception of the premier on Monday next. At Winnipeg, Regina, Saskatoon and other points the receptions had been magnificent.

Mr. Smith was in Edmonton last year, as a year ago. He was an election organizer for the Liberal party when they were successful in the Federal General Elections of 1896, 1900, and 1904, and in the Ontario provincial general elections of 1899, 1902, and 1904, immediately after the federal election of 1904, he resumed the practice of law in the city of Ottawa as the senior member of the firm of Smith, Johnson, and Smith.

Mr. Smith will remain in the city until Wednesday next when he will accompany Premier Laurier south to Calgary.

BEAT WIFE WITH CLUB
Regina, Aug. 3.—Charged with brutally assaulting his wife, in the police court today, Henry Worth, a farmer near Kenna, was sentenced to twelve months' hard labor. The evidence showed that in a fit of jealousy Worth struck his wife repeatedly with a club and a thick leather belt and subsequently dragged her along by the hair.

WANTED—GIRL FOR GENERAL housework. Apply to Mrs. Noehren, 444 Fourth St. A-3-310.

CIVIC HOLIDAY
To the citizens of the City of Edmonton:
I hereby announce and proclaim Tuesday, 9th August, 1910, until ONE o'clock in the afternoon, a public holiday in honor of the visit to our City of the Honorable Sir Wilfrid Laurier, Premier of Canada.

All Citizens are requested to observe the same.

ROBERT LEE, Mayor.

BIG MUSICAL PROGRAMME

Five Bands and a Comic Musical Act Provided for the Fair

The public can look forward to lots of music during fair week. It is proposed to have five bands in attendance and in the musical line there will be something doing. The Strathcona band, 20 pieces strong, will be present. This band has made a reputation for itself all over the province, winning first prize at the Dominion Fair. The citizens band of Edmonton which won first prize last year and the year before at the Alberta Musical Festival will have 24 pieces and put on a stronger programme than ever.

The 101st Regimental band, which has become so popular through its evening concerts and has 22 pieces, has been engaged and will parade with the 101st on the opening day of the fair and their services will be retained.

The Killies' band, in strong, with a pipe major, will be there and deliver the goods to all patriotic Scotchmen. The L. G. Barnes famous show band will be present and give special music in front of the grand stand each day.

Then there is to be a splendid comedy musical to be twice a day on the attraction platform by professionals in that line.

Band stands have been erected on the grounds, one near the large dining hall and one near the stock judging stand. These will be occupied by the different bands in turn. Near the main entrance a band will be placed from time to time.

GATHERING HAY
Farmers Reap Crops Not So Good as Formerly and Lay up Store of Fodder

There is a rush on hay permits at the land office this week. Mr. Mackenzie said that there was an extraordinary number of men coming in for permits. They were mostly section permits. This means that a permit of a certain number of tons of hay is issued and afterwards if any other man wishes a permit he can have one for a certain number of tons but he must not start cutting until the holder of the first permit has had ten days clear start.

The reason, says Mr. Mackenzie, for this rush is that the people are beginning to understand that the crops will not be as good as expected and so are endeavoring to get as much hay as possible before it is too late. The permits are mostly being issued for the country south and east of the city both for slough and upland hay.

POLICE REPORT FOR JULY.
According to the report of the local police department for the month of July, there were 97 persons apprehended or summoned during the month. There was a total of 29 cases under the criminal code, 10 cases of assault cases, 4 were assault cases, there were 4 cases of persons securing money under false pretences, the defendant in one being found guilty. There were also four theft cases, convictions in all of these cases, also resulting.
